Enthusiastic, passionate, and hard-working individual who's willing to learn and adapt to succeed in my goals. I'm currently in my second year of university at King's College London undertaking my BSc in Computer Science. I hope to become a frontend software engineer.

Key Skills

Programming Languages:	Proficient: Java
	Working Knowledge: C++, Swift, C#, MySQL, Golang
	Basic Knowledge: Scala

Main Competencies: Git, Adobe Creative Suite, Microsoft Office Suite

Work Experience

British Heart Foundation 14th October 2016 – 14th January 2017

Volunteer worker

- Received positive feedback for customer service skills from manager after helping to accommodate a customer's needs.
- Received positive feedback from co-workers as we were able to communicate well and work together well to help customers as well as maintain a smooth operation.

British Airways 9th July 2018 – 12th July 2018

Flight Operations Programme Student

- Received positive feedback from the programme managers and pilots after taking the pilot maths test and the flight simulator work.
- When doing team exercises, my team and I were able to communicate well and successfully complete the exercise as well as receive positive feedback from the pilots running the exercises.
- Upon completion of introduction training, I was given the opportunity to observe operations at the head office and go gliding.
- Completed flight operations training
